## OBJECTIVE

BCS student with strong knowledge of web development and modern frontend technologies including React.js, JavaScript, HTML, and CSS. Experienced in developing responsive full stack web applications through academic and personal projects. Seeking an entry-level software developer role to apply technical skills, gain industry experience, and contribute to innovative
development teams.

## EDUCATION

**Bachelor of Computer Science** — **Expected June 2026**

*Pragnya College Of ManagementAnd Computer Studies* — *Pune, Maharashtra*

**HSC — Science**

*Sinhgad College ; Percentage:52%* — **June 2021 - June 2022**

**SSC-10th**

*Sadhana Vidyalay, Hadapsar ; Percentage: 77%* — *Pune, Maharashtra*

**June 2019 - May 2020**

## TECHNICAL SKILLS

- **Frontend:** HTML, CSS3, Bootstrap, JavaScript, React.js, Responsive Web Design
- **Backend & Database:** REST APIs, PostgreSQL
- **Version Control:** Git & GitHub
- **Tools & IDEs:** VS Code, Chrome DevTools

*Pune, Maharashtra*

## EXPERIENCE

**Software Developer Intern | Ekovits | Pune**

**Duration: Jan2026 – Mar 2026**

- Developed responsive web application features using React.js, JavaScript, HTML, and CSS.
- Collaborated with developers to implement UI components and improve application performance.
- Debugged and fixed frontend issues for better user experience.
- Used Git & GitHub for version control and project collaboration.
- Gained practical experience in real-world software development workflows.

## PROJECTS

**GetFit (Full Stack Web Application) |** Personal Project | https://getfit-using-react.vercel.app/

- Developedafull stack fitnessweb application using React.js for the frontend and backend technologies for data handling and API integration.
- Built responsive and interactive user interfaces using React.js, JavaScript, HTML, CSS, and component-based
- architecture.
- Implemented React Hooks such as useState and useEffect along with routing for seamless user navigation.
- Developed backend functionality and integrated APIs/database to manage workout plans and dynamic application data.
- Designed a fully responsive UI compatible with desktop, tablet, and mobile devices.
- Used Git and GitHub for version control and deployed the application using Vercel/GitHub Pages.

**Job Board(FullStackWebApplication)** | Personal Project | https://rushikesh3995.github.io/Job-Board/

- Developed a Job Board web application that allows users to browse and explore various job listings in different
- categories.
- Built the frontend using React.js, HTML, CSS, and JavaScript to create an interactive and user-friendly interface.
- Integrated PostgreSQL as the backend database to store and manage job listing information.
- Implemented React component architecture and hooks such as useState / useEffect for efficient state management and UI
- updates.
- Designed a fully responsive interface compatible across desktop, tablet, and mobile devices.
- Used Git and GitHub for version control and deployed the project using GitHub Pages.

## CERTIFICATIONS

Software Developer Internship Certificate — Ekovits (3 Months)

Completed Java Skill Up Certification from GeeksforGeeks (Nation SkillUp)

## ACHIEVEMENTS

- Designed, developed, and deployed multiple full stack and React-based web applications including Job Board and GetFit.
- Completed self-learning projects including a budgeting app and personal portfolio website, demonstrating continuous learning and adaptability.
