OBJECTIVE

Motivated Bachelor of Computer Science student with hands-on experience in React.js, JavaScript, HTML, CSS, and full stack web development. Skilled in building responsive web applications and integrating APIs and databases through academic and personal projects. Seeking an entry-level software developer role to apply technical skills, contribute to development teams, and grow in a professional software engineering environment.

EDUCATION

Bachelor of Computer Science — **Expected June 2026**
Pragnya College Of Management And Computer Studies — *Pune, Maharashtra*

HSC — Science — **June 2021 - June 2022**
Sinhgad College ; Percentage:52% — *Pune, Maharashtra*

SSC-10th — **June 2019 - May 2020**
Sadhana Vidyalay, Hadapsar ; Percentage: 77% — *Pune, Maharashtra*

TECHNICAL SKILLS

- **Frontend:** HTML, CSS3, Bootstrap, JavaScript, React.js, Responsive Web Design
- **Backend:** REST APIs
- **Database:** PostgreSQL
- **Version Control:** Git & GitHub
- **Tools & IDEs:** VS Code, Chrome DevTools, Eclipse

EXPERIENCE

Software Developer Intern | Ekovits | Pune
Feb 2026 – April 2026

- Developed responsive frontend components using React.js, JavaScript, HTML, and CSS.
- Collaborated with developers to implement UI features and improve application performance.
- Debugged and resolved frontend issues to enhance user experience.
- Used Git and GitHub for version control and team collaboration.
- Gained practical experience in real-world software development workflows.

PROJECTS

GetFit (Full-Stack Web Application) | Personal Project | https://getfit-using-react.vercel.app/

- Built a responsive fitness web application with interactive workout-related features.
- Technologies Used: React.js, JavaScript, HTML5, CSS3, REST APIs, GitHub, Vercel
- Implemented React Hooks such as useState and useEffect along with routing.
- Integrated backend APIs and database functionality for dynamic data handling.
- Designed the application for desktop, tablet, and mobile responsiveness.
- Deployed the project using Vercel and managed source code using GitHub.

Job Board (Ful-Stack Web Application) | Personal Project | https://rushikesh3995.github.io/Job-Board/

- Developed a responsive job listing platform for browsing opportunities across multiple categories.
- Technologies Used: React.js, JavaScript, HTML5, CSS3, PostgreSQL, GitHub, Vercel
- Integrated PostgreSQL database for storing and managing job listings.
- Used React Hooks and component-based architecture for state management.
- Optimized the application for desktop and mobile devices.
- Managed project version control using Git and GitHub.

CERTIFICATIONS

- Software Developer Internship Certificate — Ekovits (3 Months)
- Java Skill Up Program — GeeksforGeeks

ACHIEVEMENTS

- Designed, developed, and deployed multiple full stack and React-based web applications including Job Board and GetFit.
- Completed self-learning projects including a budgeting app and personal portfolio website, demonstrating continuous learning and adaptability.
