OBJECTIVE

Motivated Computer Engineering undergraduate with knowledge of Java, frontend development, MySQL, and cloud fundamentals. Seeking internship or entry-level opportunities to apply technical and problem-solving skills in real-world software development projects.

EDUCATION

Bachelor of Computer Engineering — **Expected June 2026**
K.J College of Engineering and Management Research — *Pune, Maharashtra*

HSC — Science — **June 2020 - June 2021**
Purandar Jr. College, Saswad; Percentage:86.83 — *Pune, Maharashtra*

SSC-10th — **June 2018 - May 2019**
M.E.S. Waghire Highschool, Saswad; Percentage: 87.80 — *Pune, Maharashtra*

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML, CSS

Database: MySQL
Technologies: Git, Bootstrap, JDBC
Core Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Responsive Web Design

PROJECTS

Wheat Crop Disease Prediction | Python, TensorFlow, Keras, OpenCV, Machine Learning

- Developed an ML-based model to predict and classify wheat crop diseases using image datasets.
- Implemented image preprocessing techniques (resizing, filtering, feature extraction) for accurate classification.
- Trained the model using Convolutional Neural Networks (CNNs) to achieve accurate disease classification on test data.
- Built a user-friendly interface to upload leaf images and receive instant predictions.
- Aimed to assist farmers in early detection of crop diseases, reducing losses and improving yield.

Responsive Frontend Web Development | *HTML, CSS, Bootstrap, JavaScript*

- Developed responsive and user-friendly web interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Created multiple modern webpage layouts including landing pages, portfolio designs, and form-based interfaces.
- Implemented responsive design techniques to ensure compatibility across mobile, tablet, and desktop devices.
- Worked with Bootstrap components such as navigation bars, cards, carousels, forms, and grids.
- Improved frontend development skills through hands-on UI design and interactive webpage development.

Java and MySQL Practice Applications | *Core Java, Advanced Java, MySQL*

- Practiced Core Java concepts including OOP, exception handling, collections, multithreading, and file handling.
- Developed basic Java console-based applications for learning and problem-solving purposes.
- Worked with JDBC connectivity for establishing database connections and executing SQL queries.
- Performed CRUD operations using MySQL and Java.
- Gained understanding of servlet lifecycle, session handling, and database integration concepts in Advanced Java.

INTERNSHIP

SAP Code Unnati Internship | SAP — **Nov 2025**

- Completed industry-oriented training under SAP Code Unnati, focusing on digital and professional skill development.
- Improved problem-solving, logical and debugging skills through structured challenges.
- Enhanced problem-solving, teamwork, and communication skills aligned with industry standards.

Java Full Stack Virtual Internship | EduSkills Foundation **Duration: 10 Weeks**

- Learned frontend and backend development fundamentals using Java full stack technologies.
- Worked with Java, JDBC, MySQL, HTML, CSS, and JavaScript concepts.
- Practiced database connectivity, CRUD operations, and responsive web development.
- Gained understanding of full stack development workflow and software development practices.

ACHIEVEMENTS

- Awarded by Lila Poonawalla Foundation (LPF) Scholarship **2022**
- Successfully completed SAP Code Unnati Internship (Edunet Foundation) **2025**
- Certified AWS Academy Graduate – Cloud Foundations (Amazon Web Services) **2025**

CERTIFICATES

- SAP Code Unnati **JAN 2025**
- Java Full Stack Virtual Internship — EduSkills Foundation — 10 Weeks
- AWS Academy Graduate – AWS Academy Cloud Foundations (Amazon Web Services) **APR 2025**
