SUMMARY

Computer Engineering undergraduate (expected June 2026) with hands-on experience building full-stack web applications using Java, JSP, Servlets, JDBC, and MySQL, combined with front-end development skills in HTML, CSS, Bootstrap, and JavaScript. Delivered three end-to-end projects, including a donation management platform processing 11+ transactions across 8 charity causes and a CNG slot-booking system integrating 27 stations. AWS Academy Certified Cloud Foundations graduate with a strong foundation in Data Structures and Algorithms, Object-Oriented Programming, and DBMS. Seeking an entry-level Full Stack Developer role to design, build, and deploy scalable, user-focused web applications.

SKILLS

Languages: Java, Python, JavaScript, SQL, HTML5, CSS3

Backend Development: Core Java, Advanced Java, JSP, Servlets, JDBC, CRUD Operations, MVC Architecture, Session Management

Frontend Development: HTML, CSS, Bootstrap, JavaScript, Responsive Web Design

Database: MySQL, Database Management Systems (DBMS), Database Design

Tools & Platforms: Git, GitHub, AWS Cloud Foundations, Version Control

Core Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), Problem Solving

Machine Learning (Additional): Python, TensorFlow, Keras, OpenCV, Convolutional Neural Networks (CNN)

PROJECTS

Charifit — Online Charity Donation Platform | *Java, JDBC, MySQL, HTML, CSS, Bootstrap, JavaScript*

- Engineered a full-stack donation platform managing 8 active charity causes, contributing to ₹2,900+ raised across 11 donation transactions
- Built responsive, mobile-friendly user interfaces using HTML, CSS, Bootstrap, and JavaScript to improve usability across devices
- Developed backend functionality using Core Java, Advanced Java, and JDBC, implementing secure CRUD operations for user, volunteer, and donation data management
- Enabled real-time admin dashboard tracking of donations, 7 registered volunteers, and visitor messages, streamlining platform operations

Smart CNG Reservation System | *Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, JavaScript, Bootstrap*

- Built a full-stack CNG slot-booking system integrating 27 CNG stations, processing 15+ bookings with a 80% slot-confirmation rate
- Implemented user registration, login, slot booking, and cancellation workflows using Java, JSP, Servlets, and JDBC, reducing manual reservation effort and station wait times
- Designed a MySQL database schema for secure, real-time storage and retrieval of booking and station data, and applied session management with CRUD operations
- Designed responsive, user-friendly interfaces using HTML, CSS, Bootstrap, and JavaScript for a seamless cross-device experience

Wheat Crop Disease Prediction | *Python, TensorFlow, Keras, OpenCV, Machine Learning*

- Built a CNN-based image classification model achieving 95%+ accuracy in detecting 3-4 wheat crop diseases from a dataset of 500-1,000 leaf images
- Applied image preprocessing techniques (resizing, filtering, feature extraction) to reduce classification noise, and designed a user-facing interface for farmers to upload leaf images and receive instant predictions
- Integrated a MySQL and Java backend to store prediction records and support CRUD-based data management

INTERNSHIP EXPERIENCE

SAP Code Unnati Internship | *SAP / Edunet Foundation* Jan 2025

- Completed industry-oriented training under SAP Code Unnati, strengthening problem-solving, logical reasoning, and debugging skills through structured, real-world coding challenges
- Applied teamwork and communication practices aligned with industry standards while collaborating on assigned tasks

Java Full Stack Virtual Internship | *EduSkills Foundation* 10 Weeks

- Completed a 10-week virtual internship covering frontend and backend development using Java, JDBC, MySQL, HTML, CSS, and JavaScript
- Practiced database connectivity, CRUD operations, and responsive web development following full-stack development workflows

EDUCATION

Bachelor of Computer Engineering | *K.J. College of Engineering and Management Research, Pune, Maharashtra — CGPA : 8.94* July 2026

HSC — Science | *Purandar Jr. College, Saswad, Pune, Maharashtra — 86.83%* June 2020 – June 2021

SSC (10th) | *M.E.S. Waghire High School, Saswad, Pune, Maharashtra — 87.80%* June 2018 – May 2019

CERTIFICATIONS

- AWS Academy Graduate — AWS Academy Cloud Foundations, Amazon Web Services — April 2025
- SAP Code Unnati Certification — SAP / Edunet Foundation — January 2025
- Java Full Stack Virtual Internship Certificate — EduSkills Foundation — 10 Weeks

ACHIEVEMENTS

- Awarded the Lila Poonawalla Foundation (LPF) Scholarship — 2022
